

Blachford Inc Receives Masters of Quality Award from Daimler Trucks NA

DAIMLER

On November 17, 2014, Blachford Incorporated will be formally presented with the 2013 Daimler Trucks Masters of Quality Award. This prestigious award recognizes outstanding suppliers who have achieved high scores in their quality, delivery, technology and cost performance. Daimler Trucks has recognized Blachford for its tremendous efforts in meeting the highest standards in providing top quality components to the Freightliner and Western Star brands.

Daimler Trucks works with over 1000 different suppliers from across the world and only 59 suppliers have been recognized as meeting the standards established in order to receive the Masters of Quality award; Blachford is one of a select group of suppliers receiving this award.

As stated by Roger Nielsen, chief operating officer from Daimler Trucks North America, “the Masters of Quality award winners represent the ‘best of the best’ amongst our suppliers and their work is crucial to our enduring success.”

Blachford acknowledges that the receipt of this award speaks volumes toward its dedication and commitment to excellence in all aspects of its operations. It is through this dedication that Blachford is being recognized as meeting and exceeding Daimler’s supplier expectations.

Blachford looks forward to its continued partnership with Daimler and will continue to maintain the highest level of quality and standards expected by Daimler.
